EXPERIENCE

Web Developer Intern — Cawnpore Engineering Services | *React.js, JavaScript, SEO* Jun–Jul 2026 [GitHub](#) | [Live](#)

- Developed and launched the company's production website for its HVAC design, installation, commissioning, maintenance and upgrade services across India.
- Built a responsive and accessible React interface for services, industries and completed projects; implemented on-page SEO and managed the deployed site.

SELECTED PROJECTS

Auto-Examination Management System | *PHP, MySQL, JavaScript* Mar 2026 [GitHub](#)

- Automated exam scheduling, multi-branch seat allocation, invigilation and attendance through Admin, Exam Cell and Faculty workflows; used validated CSV imports and transaction-safe relational operations.

Bodhi-Mitra | *React 19, Node.js, Socket.IO, MongoDB*

Aug 2025 [GitHub](#) | [Live](#)

- Built a real-time mental-health support platform with OTP-verified authentication, three-role RBAC, emergency matching, live sessions, notifications and property-based tests for critical state transitions.

CredX | *Next.js 16, TypeScript, MongoDB, Groq AI*

Jul 2026 [GitHub](#) | [Live](#)

- Created an explainable job-matching workspace with transparent 0–100 scoring, PDF/DOCX/image résumé processing, application tracking and separate student and recruiter workflows.

CarouselQueue | *Python 3.12, Instagram Graph API, Cloudinary, GitHub Actions*

Sep 2026 [GitHub](#)

- Engineered a reusable automation pipeline that validates queued content, assembles four-slide carousels, publishes scheduled posts and records idempotent posting state; added dry-run previews and automated tests.

Intelligent Land Record Digitization | *Next.js, TypeScript, PostgreSQL, Drizzle, Zod*

Sep 2026 [GitHub](#)

- Developed a secure, role-scoped document workflow preserving source files, OCR evidence, corrections and immutable approvals; implemented durable processing, validation, duplicate review, audit history and human verification boundaries.
